

C4-K3L

RoHS AEC-Q200 Shielded structure

2023/03/22

Outline

High efficiency and Low DCR power inductor for battery-driven portable electric equipment power supplies (DC-DC converter, switching power supply) and other electronic equipment.

Features

1. Low DCR
2. Low profile and high current
3. Magnetically shielded structure for electromagnetic interference

Applications

For DSCs, DVD/MP3 Players, Mobile Phones, Notebook Computers, LCD TVs, PDP TVs, Car Navigations, and other electronic equipment.

C4-K3L

RoHS AEC-Q200 Shielded structure
