

High pressure blower 70DCF Series noise reference level

Measurement condition

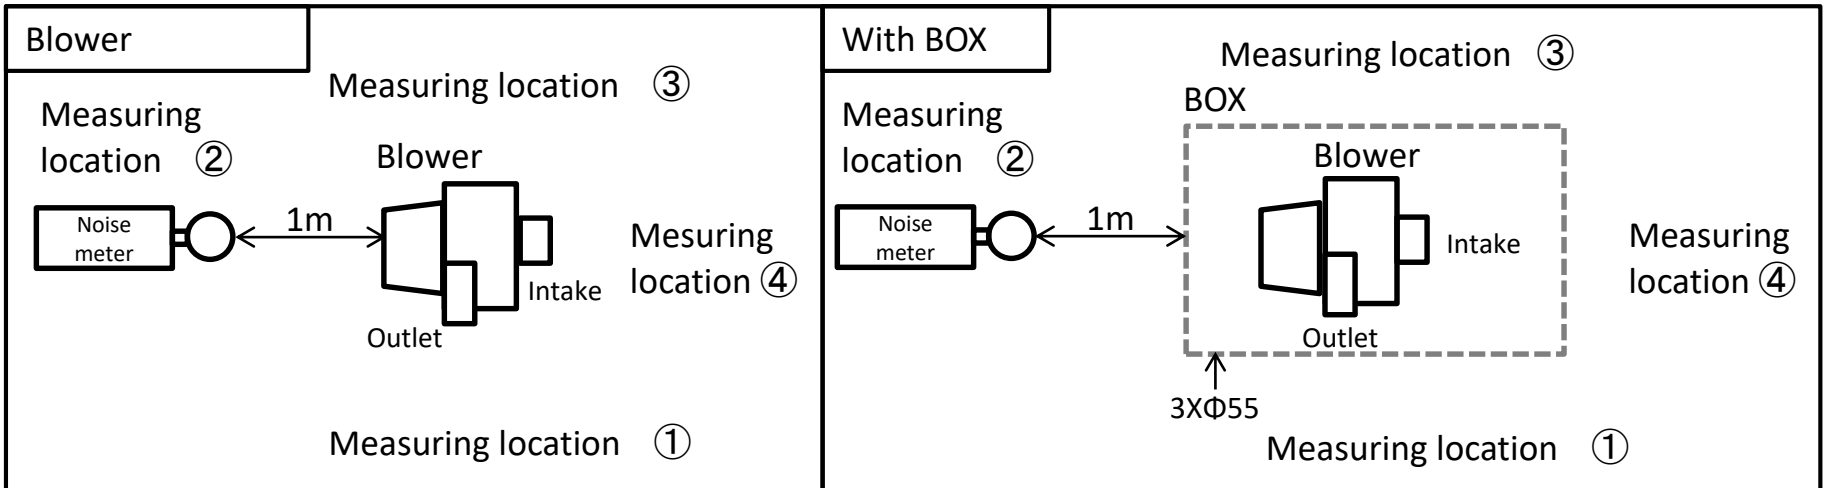

- High pressure blower simple substance.
- With sheet metal box which has intake and outlet.
- The blower is operated maximum speed with intake and outlet fully opening.

BOX : W295 × D500 × H280 mm、SPCC T2.0

(It is sponge materials existence of thickness 20mm in the BOX inside.)

Noise meter : ONOSOKKI LA-1240

Noise measuring

Measuring result (reference)

※ Numerical value is the reference level and is not guarantee.

Measuring location	Sound pressur level [dBA]			
	70DCF-373		70DCF-374(*)	
	Blower	With BOX	Blower	With BOX
①	95	81	101	84
②	92	82	100	87
③	90	79	100	86
④	96	79	100	85

* : This data was measured with the cuff attached to the intake.
