

## MM3460

2023/07/20

## Features

PFC switching power control IC for LED lights,  
DC or PWM dimming support

## Specifications

Absolute maximum rating [V]	Recommended operating voltage Min. [V]	Recommended operating voltage Max. [V]
28.0	10.0	25.5

## Package

SOP-8D

# Case Studies

**No amplifier or software desian required. Development of an LDO for**
