

Features

- Applied for test measurement, such as the balance adjustment for the tightening force, check of pressing force, etc.
- Detaching the sensor is very easy.
- All additional workers to the tie bar are unnecessary.
- Possible to install it in little space.

Specification

Specification name	Specification contents
Tie-bar gage P/No.	UX010
P/No. of the ring	TGR-*** ** : Diameter of tie bar(mm) EX. : 056→φ56 mm TGR-056
Applied diameter	40 mm ~ 200 mm
Material	Aluminum alloy (Main body), Steel alloy (Other)
