

DNA10B (High voltage type) for home appliances

2023/03/22

Overview

- dia. 41 × L23 DC Brushless motor outer rotor type
- ⓑ dia. 92 × L45 DC Brushless motor outer rotor type
- Motor Type : 3 Phase DC Brushless Motor
- Direction of Rotation : CW and CCW
- Control-Driver circuit built-in.
- Compact, Light Weight and High Output
- High Efficiency
- Low Noise
- Overcurrent and Locked Rotor Protection

DNA10B (High voltage type) for home appliances

2023/03/22

Specifications

Operating Voltage Min. [VDC]	21.6
Operating Voltage Nom. [VDC]	24
Operating Voltage Max. [VDC]	26.4
Operating Speed Nom. [min-1]	19000
Continuous Rating Power Nom. [W]	135
Operating Temperature Min. [deg.C]	0
Operating Temperature Max. [deg.C]	40

Property

CHARACTERISTICS OF (Φ41 MOTOR)
