

# 2.2 inch Back Light for Cellular phone ( Prism Type )

Lighting  
Devices  
for  
LCDs

## Specifications

### 2.2 inch Back Light for Cellular phone (Prism Type)

LED : Nichia kagaku NSSW020A 4 LEDs  
Prism sheet : Downward Prism

## Test Conditions

Forward current : If=15mA (each LED)  
Measurement point : Center of each position where effective area was divided into nine  
Measurement direction : Front (0°)  
Environment : Windless in a darkroom, Temperature 25°C, Humidity 42%

## Characteristics

Center luminance : 6,676cd/m<sup>2</sup> (typical)  
9 point AVG luminance : 6,232cd/m<sup>2</sup> (typical)  
Uniformity : 86% (typical)

LED	6,150	6,076	6,235
LED	6,700	6,676	6,682
LED	5,929	5,756	5,882
